Contents

Editorial 1

An integrated design and planning environment for welding. Part 1: Product modelling 3
P.G. Maropoulos, Z. Yao, H.D. Bradley, K.Y.G. Paramor

An integrated design and planning environment for welding. Part 2: Process planning 9
P.G. Maropoulos, Z. Yao, H.D. Bradley, K.Y.G. Paramor

Feature modelling: a validation methodology and its evaluation 15
K. Case, M.S. Hounsell

Extracting geometric features from a virtual environment 24
W. Ma, K.-Y. Chu

Dedicated 3D CAD for garment modelling 31
J. McCartney, B.K. Hinds, B.L. Seow, D. Gong

Designing cable harness assemblies in virtual environments 37
F.M. Ng, J.M. Ritchie, J.E.L. Simmons, R.G. Dewar

A knowledge cell approach to processing design information 44
W.L.D. Wong, J. Atkinson

Integration of a knowledge-based system, artificial neural networks and multimedia for gear design 53
D. Su, M. Wakelam, K. Jambunathan

CAD-based triangulation of unordered data using trimmed NURBS models 60
M. Ristic, D. Brujic, S. Handayani

Synchronized system for "Design for X" guidelines over the WWW 71
G.Q. Huang, J. Shi, K.L. Mak

A methodology for evaluation of process and production planning 79
P.F. Cunha, R.M. Mesquita, J.F. O'Kane

A feature model editor and process planning system for sheet metal products 88
J.X. Gao, Y.S. Tang, R. Sharma

An approach to computer-aided quality control based on 3D coordinate metrology 96
K. Wolf, D. Roller, D. Schäfer

A feature-based inspection process planning system for co-ordinate measuring machine (CMM) 111
S.G. Zhang, A. Ajmal, J. Wootton, A. Chisholm

An approach to form deviation evaluation for CMM measurement of 2D curve contours 119
H. Qiu, K. Cheng, Yanbin Li, Yan Li, J. Wang

Integration of tool selection with design. Part 1. Feature creation and selection of operations and tools 127
P.G. Maropoulos, R.P. Baker

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. A leaflet describing our requirements is available from the publisher upon request.

CONTENTS Direct

This journal is part of **ContentsDirect**, the ***free*** alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. You can register for **ContentsDirect** online at: **www.elsevier.nl/locate/contentsdirect**

Elsevier Science B.V.

Integration of tool selection with design. Part 2: Aggregate machining time estimation . . . 135
P.G. Maropoulos, R.P. Baker, K.Y.G. Paramor

A flexible tool selection decision support system for milling operations . . . 143
I.D. Carpenter, P.G. Maropoulos

Application and evaluation of VR-based CAPP system . . . 153
Q. Peng, F.R. Hall, P.M. Lister

An expert system of machining operation planning in Internet environment . . . 160
T. Kojima, H. Sekiguchi, H. Kobayashi, S. Nakahara, S. Ohtani

A novel high-accuracy microstereolithography method employing an adaptive electro-optic mask . . . 167
M. Farsari, F. Claret-Tournier, S. Huang, C.R. Chatwin, D.M. Budgett, P.M. Birch, R.C.D. Young, J.D. Richardson

A new approach to CAM systems development for small and medium enterprises . . . 173
Z. Adamczyk

Design and manufacture of anatomical hip joint endoprostheses using CAD/CAM systems . . . 181
A. Werner, Z. Lechniak, K. Skalski, K. Kędzior

Corporate ontologies and concurrent engineering . . . 187
C. Roche

A concurrent engineering approach to the development of a scroll compressor . . . 194
Z. Jiang, K. Cheng, D.K. Harrison

Implementation of concurrent engineering in the suppliers to the automotive industry . . . 201
J.X. Gao, B.M. Manson, P. Kyratsis

Formal specification of a multi-agent system architecture for manufacture: the contribution of the π-calculus . . . 209
Y. Dumond, C. Roche

Analysis of the transitional temperature for tensile residual stress in grinding . . . 216
X. Chen, W.B. Rowe, D.F. McCormack

The investigation on the machining process of BTA deep hole drilling . . . 222
C.H. Gao, K. Cheng, D. Kirkwood

Satisfying various requirements in different levels and stages of machining using one general ANN-based process model . . . 228
L. Monostori, Zs.J. Viharos, S. Markos

Decision support system to optimise the Frictec (friction surfacing) process . . . 236
V.I. Vitanov, I.I. Voutchkov, G.M. Bedford

A new approach for systematic design of condition monitoring systems for milling processes . . . 243
A. Al-Habaibeh, N. Gindy

A method for the simulation of temperature stabilisation in the tools during multi-cycle cold-forging operations . . . 252
Y. Qin, R. Balendra, K. Chodnikiewicz

Expert system of cold forging defects using risk analysis tree network with fuzzy language . . . 260
T. Ohashi, M. Motomura

Modelling wall boundary conditions in an elasto-viscoplastic material forming process . . . 267
Z. Huang, M. Lucas, M.J. Adams

Computer applications in unconventional machining . . . 276
A.K.M. De Silva, J.A. McGeough

The computer aided simulation of electrochemical process with universal spherical electrodes when machining sculptured surfaces . . . 283
J. Kozak, M. Chuchro, A. Ruszaj, K. Karbowski

The influence of electrode surface geometrical structure on electrochemical smoothing process . . . 288
M. Zybura-Skrabalak, A. Ruszaj

CAE-ECM system for electrochemical technology of parts and tools . . . 293
J. Kozak, L. Dabrowski, K. Lubkowski, M. Rozenek, R. Slawiński

Direct and inverse problems of shaping by electrochemical generating machining . . . 300
P. Domanowski, J. Kozak

Over-rated drive of robots and its evaluations . . . 307
S. Kan, M. Kusayama, Y. Kushihashi, T. Honda

An energy based model for the flattening of woven fabrics . . . 312
J. McCartney, B.K. Hinds, B.L. Seow, D. Gong

Electronically networked assembly systems for global manufacturing . . . 319
K. Feldmann, H. Rottbauer

Evaluation methodologies for technology selection . . . 330
F.T.S. Chan, M.H. Chan, N.K.H. Tang

Achieving agility using cladistics: an evolutionary analysis . . . 338
C. Tsinopoulos, I.P. McCarthy

Manufacturing competitiveness and fitness landscape theory . . . 347
I.P. McCarthy, Y.K. Tan

A decision support framework for strategic purchasing . . . 353
P.K. Humphreys, V.H.Y. Lo, R.T. McIvor

"TeleService" a customer-oriented and efficient service? . . . 363
R. Küssel, V. Liestmann, M. Spiess, V. Stich

Manufacturing planning within holistic strategic operations . . . 372
C.E.R. Wainwright, P.G. Lee

Knowledge-based engineering for SMEs — a methodology . . . 384
P.J. Lovett, A. Ingram, C.N. Bancroft

Fine planning for supply chains in semiconductor manufacture . . . 390
T.M. Rupp, M. Ristic

A blackboard-based negotiation for collaborative supply chain system . . . 398
T. Ito, M. Rizal Salleh

A generic coordination approach applied to a manufacturing environment . . . 404
G. Coates, A.H.B. Duffy, W. Hills, R.I. Whitfield

Simulation as an essential tool for advanced manufacturing technology problems . . . 412
J.F. O'Kane, J.R. Spenceley, R. Taylor

Designing an immersive virtual reality interface for layout planning . . . 425
B. Korves, M. Loftus

A component-based approach to support order planning in a distributed manufacturing enterprise . . . 431
A.L. Azevedo, J.P. Sousa

Controlling and monitoring functions as supplement to MRPXX-systems . . . 439
F. Nyhuis

Machine loading algorithms for the elimination of tardy jobs in flexible batch machining applications . . . 450
S. Rahimifard, S.T. Newman

Heuristic algorithm for scheduling in the no-wait flow-shop . . . 459
E. Bertolissi

The interactive process between some dispatching mechanisms and interrupted machine centers in FMSs . . . 466
M.A. Shouman, G.M. Nawara, A.H. Reyad, A.M. El-sadek

Distributed model management system for material flow simulation . . . 478
H. Bley, R. Oltermann, C.C. Wuttke

Author Index . . . 485
Subject Index . . . 487
